

Imperial China collapses

In the below table provide an answer to each question.

What are the internal and external factors that contributed to the fall of the Qing Dynasty?

External Factors	How this made China weaker:
1) Opium War	
2) Losing power in peripheral regions	
3) European powers "spheres of influence"	
Internal Factors	Explanation as to why this causes internal problems
1) The Qing were seen as foreign rulers	<i>Where are they from? Why is this an issue?</i>
2) The inability to fight foreign powers on their own soil.	<i>What event happened in 1900? Explain significance.</i>
